

MANIFESTO FOR TOLERANCE

Developing interculturally competent students as a way of overcoming cultural conflicts

This common manifesto for tolerance is created with the aim to:

1. **TO ACCEPT** other people's existence and an equal relationship with them.
2. **TO DEFEND** an attitude of openness and respect for the differences that exist among people.
3. **TO ASK FOR** others the same rights that we want for ourselves.
4. **TO CONTRIBUTE** our student's self-developments, teaching them that tolerance is a functional communication process based on mutual love, respect and understanding.
5. **TO DENOUNCE** assumptions based on stereotypes, prejudices or judgements.
6. **TO KEEP WORKING ON** social equality, inclusiveness, human rights and cultural diversities.
7. **TO CONTINUE** our support for developing citizens of tomorrow: respectful, confident and empathic.
